

VENTURA LAFCO

MUNICIPAL SERVICE REVIEW & SPHERE OF INFLUENCE UPDATE WORK PLAN: 2002-2006

Work Plan Principles

- The municipal service review and sphere of influence process will be conducted in three overlapping phases.
- Phase 1 will be a Countywide review of water and wastewater services. Water (non-agricultural) and wastewater services are core municipal services necessary for urban growth. Of the existing 10 cities and 49 special districts with sphere of influence boundaries, 36 provide some form of water and/or wastewater service. There is more overlap in the spheres of influence of water and wastewater service providers than any of the other categories of municipal services.
- Phase 2 will be an agency-by-agency review for services, except water and wastewater services, provided by all special districts, except health care, memorial and harbor/port districts.
- Phase 3 will be an agency-by-agency review for services, except water and wastewater services, provided by all cities and health care and harbor/port districts.
- Municipal service reviews should be prepared in collaboration with the affected agencies. Information requested should be from available public sources and the need for any agency to prepare new information should be minimized. To the maximum extent possible service review determinations should be based on information provided by the affected agencies. Municipal service reviews should be of meaningful use to the affected agencies.
- The focus of municipal service reviews should be on those aspects of operations that relate to the authorities of LAFCO, specifically issues that relate to governmental organization and agency and sphere of influence boundaries.
- Public participation in the service review and sphere of influence update process should be encouraged. All municipal service reviews should be readily accessible to, and easily understandable by, the general public.
- The first municipal service reviews should establish a base of information and data that can be readily updated and used for subsequent municipal service reviews.
- Municipal service reviews and sphere of influence updates are the responsibility of LAFCO. LAFCO will budget sufficient resources to prepare municipal service reviews and basic sphere of influence updates either by consultants or staff or some combination of consultants and staff. If, however, further special studies are warranted or in-depth environmental review is necessary for the completion of municipal service reviews or sphere of influence updates, LAFCO will seek funding from the affected agency.
- If, upon review, LAFCO determines that no sphere of influence update is necessary for an agency, no municipal service review will be conducted for that agency. Such a determination has been made for the Ahmanson Ranch Community Services District. While formed this District is not operational, has no revenues and should be dissolved.
- This Work Plan should be periodically revised and updated based on work completed and determinations made by LAFCO.
